PROFILE

As a fresher, I am eager to leverage my foundational knowledge in MERN stack development to contribute to innovative web projects. Proficient in HTML, CSS, JavaScript, and eager to learn MongoDB, Express.js, React.js, and Node.js to develop dynamic and interactive web applications. Committed to continuously enhancing my skills and delivering high-quality code within collaborative teams.

PROJECTS

EnoteBook (MERN) 🔗

The eNotebook project is a comprehensive application facilitating seamless CRUD operations for both user and note models. Users can effortlessly create, read, update, and delete notes within their personalized environment, ensuring efficient organization and management of their digital notes. With a user-centric approach and robust CRUD functionality, the project aims to enhance productivity and user experience in digital note-taking.

Tour package (REACT JS) 🔗

"Discover exciting destinations with our tour package platform, built using React JS. Experience a seamless, responsive design, showcasing curated trips and detailed itineraries. Navigating your next adventure is now at your fingertips, optimized for every device. Dive into a world of travel, crafted with cutting-edge tech."

Music Website (NEXT JS) 🔗

Create a dynamic and responsive music website using Next.js and TypeScript. Implement features like song previews, artist information, and a sleek UI. Leverage Next.js for seamless navigation and TypeScript for robust type checking, ensuring a smooth development process and a polished user experience.

CRUD Project(Express Js, MongoDB) 🔗

The project is a CRUD (Create, Read, Update, Delete) application developed using Node.js with Express.js framework for server-side operations and MongoDB for data storage. It allows users to perform basic CRUD operations on a dataset, enabling them to create, retrieve, update, and delete records through a user-friendly interface. This application employs RESTful API endpoints to handle requests and interacts with the MongoDB database to store and manipulate data efficiently. Additionally, it utilizes modern development practices to ensure scalability, maintainability, and security.

SEO WEBSITE 🔗

Optimized website with SEO-friendly HTML, CSS, and JS, ensuring fast load times and seamless responsiveness across all devices

SKILLS

HTML || CSS || TAILWIND CSS || JAVASCRIPT || REACT JS || NEXT JS || GITHUB || NODE JS || EXPRESS JS
|| MONGODB

COURSES

I have completed Full Stack Web Development program from PwSkills.

EDUCATION

B.Sc(Maths)	06/2020 – 08/2023
Sri P.L. Verma Teachers Training College, Dakouli, Hardoi	Sandila, India
